General manual

NewConference is the professional conferencing service where ease of use and quality make the difference. At the newConference website you will find an up to date overview of all features. The purpose of this manual is to explain the basic operation of newConference Direct.

#### Define a conference code

The chairman defines a conference code. He uses at least four digits and does not use simple codes like 1234.

#### Inform the participants

The chairman provides the following information to all participants: the starting time, the dial in number and the conference code.

The dial in numbers are: 0180-5522250 (Germany), 0900-1460 (The Netherlands) and 070/246150 (Belgium).

#### Start the meeting

At the agreed time each participant dials one of the dial in numbers and enters 1 to join the conference followed by the conference code.
